(BY THE ASSOCIATED PRESS.—P.M.)

WASHINGTON, March 6.—The question of the enlargement of the medical department of the army occupied the major portion of the day of the Senate today. The question arose in connection with the consideration of a bill for the displacement of contract surgeons by physicians, who shall be given the rank of army officers, and the bill was passed by a vote of 74 to 16.

Mr. Hale, who introduced the bill, said that the bill was introduced to encourage an invasion of China.

## INDIAN BILL PROVOKES TALK.

**HOUSE HAS ONE OF ITS PERIODICAL TARIFF DEBATES.**

**Mr. Rucker Still Has Leanings Toward Bryan as a Standard-bearer.**

**He Lambasts the Tariff on Linotypes and Thinks Republican Editors Should Get Together.**

(BY THE ASSOCIATED PRESS.—P.M.)

WASHINGTON, March 6.—The House began its session today by passing without discussion or opposition a bill for the relief of tobacco growers, by permitting them to sell leaf tobacco without paying the tax of 6 cents a pound heretofore charged. The balance of the day was devoted to tariff debates, the Indian Appropriation Bill being the vehicle to carry the debate. Preceding this, Mr. Rucker of Missouri, who brought forth designed arguments to sustain the Democratic idea of tariff, closed with a warning to the prediction that these ideas would prevail with W. J. Bryan as the standard-bearer.

Mr. Lacey, in discussing the home market and the German tariff, initiated a lively argument on both sides, participated in generally, and near the close of the day Mr. Williams, the minority leader, talked tariff for more than an hour.

Mr. Williams discussed the various bills he had introduced, and asserted that 25 per cent of the cost of the commodities would cover, as a rule, the actual cost of the labor in their production.

Before beginning the consideration of the Indian Appropriation Bill, which was the order of business for the day, a resolution was unanimously agreed to, declaring Anthony Michael, a citizen of the United States and a resident of Illinois, duly elected a member of the Fifty-ninth Congress. This declaration was the unanimous report of the Elections Committee No. 1, and was presented by Mr. Mann of Illinois.

The bill relating tobacco growers from all lands in the sale of leaf tobacco was passed.

**SHERMAN'S INDIAN TALK.**  
The Indian bill, carrying \$7,500,000, was then taken up, and Mr. Sherman explained the provisions. He concluded his explanation with the prediction that the time would come when the great body of the Indian people of the continent would be self-supporting along the lines of industry to which they are best adapted.

**TARIFF AND LINOTYPES.**  
Comparing the increase in the production of the tariff and the value of productive and industrial property under high and low tariffs, Mr. Rucker of Missouri drew the conclusion that the lower the tariff, the greater had been the increase of wealth; that, since 1850, the tariff had been made higher and the increase of production had been less.

Turning his attention to the tariff on linotype machines, Mr. Rucker said it had been determined that these machines could be produced for \$600, and yet they were sold for \$2000 because of the tariff.

Mr. Rucker concluded with the prediction that, with a tariff-revision platform, the country would be able to produce the goods it needs at a lower cost, and the Democratic party would, as a cyclone, sweep the country.

**FOUGHT ON THE RUN.**  
Mr. Lacey then took occasion also to discuss the tariff. His conclusions provoked a lively running debate involving Messrs. Clark of Missouri, Weaver of Wisconsin, Powers of Maine, Gardner of Massachusetts, Williams of Mississippi and Grosvenor of Ohio. The result was that Mr. Weaver, who is a tanner and therefore, according to Mr. Lacey's quotation of Shakespeare, "will last nine years when he is dead," declared that the American farmer was worth \$1,000,000 a year because of the tariff on hides and also that many tanners were moving to Canada, because of that duty. He also, in answer to Mr. Gardner, declared that the alleged "tanners' trust" controlled only 20 per cent of that trade, and that Armour and his brother-in-law, Valentine, did not own a controlling interest in it.

Mr. Clark questioned Mr. Lacey closely to his politics of Gov. Cummings of Iowa and his utterances as to the "robbery under the Dingley Bill."

Mr. Lacey said he had voted twice for Cummings for Governor, and would do so again, "if he is nominated on the other ticket."

**WILLIAMS ON THE FLOOR.**  
Mr. Williams of Mississippi then took the floor for a general reply to Mr. Lacey.

"There are a few things," began Mr. Williams, "at one and the same time more amusing and more pitiable than the acrobatic exploits of human intelligence when attempting to prove that laws which circumscribe and limit trade tend to increase trade."

**HIS 100 PER CENT LIST.**  
One of his bills, Mr. Williams said, provided for a reduction of 100 per cent of all duties over that amount. He had seen the Speaker quoted as saying: "This must be one of John Sharp Williams' jokes, as there are no such duties."

## PLANTS FOR ELECTRICITY.

**Bill to Grant the Edison Company Certain Rights.**

**Agreement to Change Yosemite Park Boundaries.**

**Provision for the San Diego Public Building.**

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, March 6.—(Exclusive Dispatch.) Senator Flint today introduced a bill granting the Edison Electric Company permission to occupy certain lands for electric-power plants in San Bernardino, Sierra and San Gabriel forest reservations for a term of years, to be determined by the Secretary of Agriculture. The company is permitted to divert the waters of Mill Creek, Santa Ana River, Lytle Creek and Kern River for its purpose. The company is obligated to fight forest fires and pay suitably for wood, timber and other natural products used in its business. The bill is similar to one introduced recently by Representative Smith.

**YOSEMITE PARK BOUNDARIES.**  
(BY DIRECT WIRE TO THE TIMES.)  
WASHINGTON, March 6.—(Exclusive Dispatch.) The California delegation and Secretary Hitchcock have agreed on changing the boundaries of Yosemite National Park at the southwest corner, so as to permit the Huntington electric railroad from Fresno to get within eleven miles of Yosemite Valley's national wonders, as others do now. The proposition is embodied in an amendment proposed by Senator Perkins to the Gillette resolution, accepting the recession of the valley from the State. The plan is to avail action by the Senate upon the measure before Representative Smith takes charge of it before the Public Lands Committee of the House.

**SAN DIEGO PUBLIC BUILDING.**  
(BY DIRECT WIRE TO THE TIMES.)  
WASHINGTON, March 6.—(Exclusive Dispatch.) Representative Smith today stated the provision will be made in the forthcoming Omnibus Public Building Bill for a San Diego public building. The amount allotted is not certain, but it is expected to be \$1,000,000. The project was favorably impressed by the fact that San Diego is a business center with public buildings in point of population, postal receipts and rent paid for the postoffice.

**ATACKING PEAR BLIGHT.**  
(BY DIRECT WIRE TO THE TIMES.)  
WASHINGTON, March 6.—(Exclusive Dispatch.) Following the example of Representative McKinley in California, Senator Dubois of Idaho today introduced a bill appropriating \$100,000 for expenses at the Idaho experiment station, with a view to exterminating pear blight. That pest is especially prevalent in California but appears to have spread to mountain States.

**SCHOOLS OF MINING.**  
(BY DIRECT WIRE TO THE TIMES.)  
WASHINGTON, March 6.—(Exclusive Dispatch.) Senator Dick today reported the Patterson bill, endowing schools and colleges of mining in the State Universities of California, Colorado and many other Western States. The bill appropriates \$10,000 each for such institutions from the proceeds from the sale of public lands, and increases the amount \$10,000 annually for ten years, \$20,000 being allotted yearly thereafter. The bill is similar to the Adams bill, increasing appropriations for the aid of agricultural experiment stations.

**WASHINGTON BRIEFS.**  
"California" by Stereophon.  
WASHINGTON, March 6.—(Exclusive Dispatch.) "California" was the subject of a stereophon lecture, last evening, at the Washington Public Library, by Woodworth Clum. He said California is unique among the States and presents surprises to tourists at every turn. Clum dealt at length on the beauties of the Yosemite Valley and other portions of the Western State, and reference was made to the growth of the cities of California and to the educational institutions established.

**Deering's Resignation Accepted.**  
WASHINGTON, March 6.—The President has accepted the resignation of Past Assistant Paymaster George Deering, U.S.A., tried by court-martial and convicted of irregularity in his accounts. The name of Paymaster Deering has been pending since last fall.

**Coal for Cold Sufferers.**  
WASHINGTON, March 6.—Secretary Taft has sent to Congress a joint resolution authorizing the government to sell the surplus coal on hand at Fort Davis, Texas, to alleviate the suffering of the people there, who are experiencing a coal famine. The Mayor of the town and other officials have petitioned the Secretary for urgent plea for assistance, but he finds that he has no authority to let them have the coal at the post.

**German-Americans and Liquor.**  
WASHINGTON, March 6.—A large delegation of the German-American Alliance appeared before the House Committee on Judiciary to oppose the Hepburn-Doolittle bill for the prevention of collect on delivery shipments of liquors in prohibition districts.

**Funds for Japan's Hungry.**  
WASHINGTON, March 6.—The State Department today forwarded \$5000 collected by the Red Cross for the relief of the Japanese famine sufferers.

**Honors for Schofield's Memory.**  
WASHINGTON, March 6.—By direction of Secretary Taft, full military honors will be paid to the memory of the late Lieut.-Gen. John M. Schofield, U.S.A., on the occasion of his obsequies here tomorrow.

**"Osterizing" Clerk's Salaries.**  
WASHINGTON, March 6.—A provision limiting the salaries of government clerks over 25 years old to \$1000 a year has been attached to the Executive Appropriation Bill by a subcommittee.

**Santo Domingo Quiet.**  
WASHINGTON, March 6.—A calm reigns in Santo Domingo.

## IS GUILTY AS MANSLEYER.

Berthe Clache so Pleads and  
Then Faints.

Sensational Scenes in the New  
York Court.

Attorneys Claim Evidence  
Will Startle Police.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, March 6.—Berthe Clache pleaded guilty to manslaughter in the first degree at the resumption of her trial for murder in the Superior Court this morning. The young woman had previously pleaded not guilty.

Her action today was the result of a series of secret conferences between representatives of Dist. Atty. Jerome and the defendant's counsel.

Scarcely had she uttered the word "guilty" when she fell back in a faint, and when revived became hysterical. All efforts to quiet her were vain, and finally she was removed from court to the Tombs prison, where physicians were called to attend her. Sentence will be pronounced March 23.

NEW YORK, March 6.—[Exclusive Dispatch.] Taking advantage of the regulations of police venality, which the trial of Emil Gerderon's murder has brought out, and measuring against the technical advantages which the prosecution enjoys over the defense, attorneys Levy and Rosalvy, it is said, offered to turn over their client as a State witness against the police, provided her liberty was given to her in exchange.

The offer made in private, created a sensation, and brought the trial to a temporary halt, while counsel for the defense and Dist. Atty. Jerome conferred long and earnestly over the proposition, the defendant in the meantime remaining in the Tombs on the verge of collapse.

For the time being the conference resulted in nothing, as Jerome was loath to pay the price, and Levy and Rosalvy would offer no terms short of freedom. When the court reconvened yesterday, amid one of the most dramatic scenes of the trial, the taking of testimony for the defense was resumed. The proposition of the attorneys put every policeman in the "tenderloin" on the defensive, and presents a situation of affairs which will force Mayor McCallan's police commissioner to act. The offer made by counsel for the Clache girl was this: If a plea of guilty to manslaughter in a minor degree is accepted and the defendant is assured liberation under suspended sentence, she will put in the hands of the District Attorney all of the evidence in her possession touching upon police corruption in the "tenderloin."

A point of great importance to be considered is that Dist. Atty. Jerome is said to have in his safe information which would only confirm that Berthe Clache can furnish to enable him to act.

## BOY IMITATES "BLACK HAND."

MAX RING SAYS HE WANTED TO  
HELP "GRANDMA."

Twelve-Year-Old Pittsburgh Lad  
Wrote to Woman Storekeeper De-  
manding a Thousand Dollars on the  
Strength of "Chirpids"—Robs  
Her Place Three Successive Nights.

(BY DIRECT WIRE TO THE TIMES.)

PITTSBURGH, March 6.—[Exclusive Dispatch.] A twelve-year-old boy in the Police Court today has confessed that he is the writer of some of the "black hand" letters, that have been spreading terror in Pittsburgh and vicinity. The strangest part of the case, however, is that the boy wrote the letters that he might get money to support his old grandmother, who has taken care of him ever since he was three years old, and to whom the lad is passionately attached.

Max Ring is the lad's name, and he lives in Allegheny. He was arrested while robbing the store of Mrs. M. W. Baird, on Liberty street, Allegheny. Two weeks ago Mrs. Baird began to receive blood-curdling letters, signed with a dagger and bleeding-heart emblem like that of the "black hand." The letters demanded that when a certain boy should come into the store, and say "Chirpids," she should then there quietly give him a package containing \$1000. The penalty for non-compliance with the demand was to have her store robbed.

The writer of the letter got no money from her, but robbed Mrs. Baird's store Wednesday, Thursday and Friday nights, always eluding the police until captured Saturday night.

When arraigned today Max very seriously told of the sorry plight of himself and his grandmother, and declared that he "just had to write those 'black hand' letters to scrape up some cash."

HELD FOR \$20,000 RANSOM.

(BY THE ASSOCIATED PRESS—P.M.)

NEW YORK, March 6.—Antonio Rosalvy, the fourteen-year-old son of John Rosalvy, a leading Italian banker, whose place of business is at Sixty-third street and First avenue, has been kidnapped and is being held for \$20,000 ransom.

The kidnapping occurred last Sunday, on which day the bank is kept open during the afternoon. The boy, who was acting as a clerk, was sent out to purchase \$10 worth of stamps, and did not return. Inquiry proved that he made the purchase. Yesterday the first letter came from the boy. Today there came a second letter, and with it a letter from the abductors. The letter was well written in Italian. The boy's first letter said he was held captive in Brooklyn. After asking that the money be paid, the note concluded:

"Do not advise the police under any circumstances, because if you do, my life will leave this world."

One of the letters from the boy's captors contained this sentence: "Our signature is not vindictive."

is solely the extreme necessity which exists for the possession of the sum indicated. Upon your consent of the money all at once, without default, your son will be set free and safe."

March 8 is the day set for the payment of the ransom.

NOT SHOT BY MISTAKE.

NEW LIGHT ON DOAK MURDER.

(BY THE ASSOCIATED PRESS—A.M.)

SAN JOSE, March 6.—The inquest in the case of Paul C. Doak, who was shot to death by two unknown men in the rear of a Gilroy saloon Sunday night, was resumed in that city this morning, and shortly before noon the jury returned a verdict of death caused by gunshot wounds at the hands of some man or men unknown.

Many Italians who were present in the dive at the time of the shooting were examined, but little information of value was obtained. Four Italians are now in the County Jail under arrest, and this afternoon the Sheriff is out for the purpose of arresting another. One Italian boy and a woman are also being detained as important witnesses.

Although no direct information was obtained, sufficient facts were brought out at the inquest to dissipate the theory that Doak had been mistaken for another man, it now being almost certain, in the new light thrown on the case, that he had been drinking and dancing in the dive, and that the motive for the crime was drunken jealousy.

CRIME BRIEFS.

Passed on Mrs. Tolla's Case.

TRENTON (N. J.) March 6.—The Supreme Court today decided that Justice Garretson has no authority to grant the motion for a new trial for Mrs. Antoinette Tolla, now under sentence of death. Justice Garretson had certified the case to the Supreme Court for advice.

Think He Is Constantine.

WHEELING (W. Va.) March 6.—A man going under the name of "Gregory," but believed to be Frank B. Constantine, wanted in Chicago, for the murder of Mrs. Arthur W. Gentry on January 5, has been arrested at Cameron, W. Va., where he was working in a restaurant.

Fear Hollister Will Kill Ivens.

CHICAGO, March 6.—The work of selecting a jury in the case of Edward Ivens, charged with the murder of Mrs. Bessie Hollister, began today. Several detectives sat close to Ivens in court, it being feared that the husband of the murdered woman would attempt to kill him.

Boys Try to Wreck Trains.

LIVERMORE, March 6.—Charged with attempting to derail trains, Joseph Fucina, 14 years old, was arrested here today. The boy is said to be a member of a gang of youths about 12 years of age who have been impeding the travel of passengers on the Southern Pacific tracks ahead of approaching passenger and freight trains.

Shoots Wife, Kills Self.

OAKLAND, March 6.—After an unsuccessful attempt to induce his wife to return with him to their former home at Berkeley, Frederick Bierwerth, 42 years old, fired four shots at her, wounding her in the neck seriously, but not fatally. Then, turning the smoking revolver to his right temple, he sent a bullet crashing through his brain. He was almost instantly killed.

BETTER ROADS,  
MORE MONEY.

ROCK ISLAND PRESIDENT GIVES  
US SOUND TIPS.

Says We Ought to Make This  
Home of the Automobile and Induce  
Millions to Stay Away from Europe.  
Sorry He Can't Extend His Line  
This Week.

"I regret to acknowledge my inability to extend the Rock Island railway to the Pacific Coast this week," said President R. L. Winchell of that system, as he slipped the end of an after-dinner cigar in the lobby of the Alexandria.

President Winchell had just arrived in the city a few hours before on a special train over the Southern Pacific, accompanied by his wife and son, and after a good dinner was spending a busy hour in greeting old-time friends.

"Our chief concern just at present is in perfecting and improving our present lines, in order to give the public the best possible service. In fact, that is the present moment. We are not troubling ourselves about rate legislation, prospective coal strikes or insurance investigations. We are trying to operate a railroad in the very best way we know how."

"Yes, I know so much has been said of the Rock Island extending its line through to the Coast that every time a surveyor comes out here to enjoy the winter climate, or every time one of our representatives travels west of the Rockies, it is indicative of nothing but the fact that the great work of construction is to begin immediately. But there's nothing in it. The future? Who can tell. Prospects are seldom so bright as they are today."

"Los Angeles is a great place. It's on the map to stay. It has the things that attract people come neck and get their money's worth. They are bound to go away satisfied with their trip, and likely enough dissatisfied with where they are living. Then they are apt to pack up and come out here to stay. Then their friends and relatives come out to visit them, and are captivated in turn, and so it goes."

"People tour Europe; they go to the great cities of the continent, they visit Switzerland and the Alps. They cover lots of territory and spend piles of money to do it. If they only knew it they could find all the attractions combined out here. They are beginning to find it out. It makes business for the railroads and keeps the money at home."

You ought to go things one better out here. You ought to build a few French roads through Southern California. You ought to make it the home of the automobile more than it is today, as much so as in France. According to estimates I have seen of the money which American automobilists spend in Europe, this would have the effect of inducing from \$100,000,000 to \$200,000,000 annually to stay at home, doubtless enough to the keen regret of our French friends."

"I am ashamed to say that I haven't been out here for four years. The importance of this territory is such to all the principal railway lines of the United States that none of us can afford not to keep in close touch with it. Although I am principally here on a pleasure trip, I am naturally at the

"We go north tomorrow, stopping off at Santa Barbara. Then we shall proceed to the Frisco and so on home again."

President Winchell is one of the school of comparatively young men in railroads. He is but 46 years of age, and began his railway life thirty-two years ago in the shops of the Burlington Railway at Hannibal, Mo. From the first his rise was rapid, as he forged to the front through hard work and persistent application first, and recognition of his genius as a railway man, recognized later, in different departments. He was finally elected vice-president and general manager of the Frisco system in 1900, and shortly after its merger with the Rock Island, became president of the whole great system.

HUNTINGTON DUE TOMORROW.  
H. E. Huntington is expected to arrive tomorrow from San Francisco, where he attended the wedding of his daughter, after a flying business trip to New York.

Many matters in the way of improvements and extensions of the Pacific Electric Railway system are being held up awaiting his return and approval. One of the very first things to receive his personal attention will be the plans for the elevated approaches in the rear of the Main-street depot in order to allow the cars to outside towns to loop through the present depot, instead of entering and leaving from the Main-street entrance.

The ground of the entire block in the rear of the big building has been cleared, and preliminary plans of the steel structure for the rear approaches drafted. The plans have been revised and approved. It is believed that actual construction will not be long delayed, as the officials of the Pacific Electric are full as anxious as any one to take active steps to relieve the present congestion and daily blockades of cars on Main street.

EXCURSION TO MEXICO.  
A special Mexican Central excursion to Mexico City left last night over the Santa Fe with a number of Los Angeles people aboard. They will spend sixty days in the southern republic, returning by way of the Southern Pacific.

This is the first of a series of special excursions which the Mexican Central Railway is planning to run in conjunction with the Southern Pacific and Santa Fe. The Mexican road, through the influence of J. J. McElroy, assistant general passenger agent, formerly of this city, has so far recognized the value and importance of the business emanating in Southern California territory as to open an office at No. 207 West Third street under the supervision of the San Francisco office and H. C. Archer, general agent for the Pacific Coast.

CARELESS SHOOTER WOUNDS.

John C. Jones went to the Receiving Hospital last night to have a slight gunshot wound in his back dressed. He had been eating a late supper in Jim's Checker House on West Second street and was sitting with his back toward the partition, which separates the restaurant from the shooting gallery next door.

This partition is made of a single layer of thin board. While Jones was engaged with his meal a 22-caliber rifle in the hands of some careless person was discharged into the partition. The bullet went through the thin board and struck Jones squarely between the shoulders, but his force was spent and the skin was not broken on Jones's back even though the lead pellet penetrated his clothing.

The police investigated the case and found the partition entirely too thin for safety. They say it is a wonder that other guests in the chowder house did not have their heads blown off.

Letters to Mothers.

All Los Angeles Women Should  
Be Interested in This Letter.

Mrs. C. W. Stump of Canton, Ohio, writes: "I wish I could induce every mother who has a weak, sickly child to try the medicinal and strength-giving Vinol. Our little daughter was pale, thin and sickly. She had no appetite and no ambition."

"Learning that Vinol contains all the medicinal and strength-giving properties of cod liver oil, but without the nauseating and system-clogging oil, we decided to try it, and the results were marvelous. She loved to take it, and it gave her a hearty appetite, the color returned to her cheeks and she is stronger and in better health than she has been for years."

"I cannot say enough in favor of this delicious cod liver preparation for weak, puny children."

A member of The Owl Drug Co. says: "We have never sold a medicine of this territory is such to all the principal railway lines of the United States that none of us can afford not to keep in close touch with it. Although I am principally here on a pleasure trip, I am naturally at the

same time looking over our interests on the Coast."

## DEATH BY INDIGESTION

A Long Train of Fatal Ills Is The  
Direct Result of Undigested Food.

Undigested food, by fermenting, forms a poison in the stomach, and this is absorbed in the blood. If this goes on very long, and your heart happens to be weak, you'll be found some morning dead in bed, or you may fall back down the stairs about an hour and a half after dinner, and the doctor will call it heart disease. Yes, that may be the result, but not the cause. The cause is indigestion. Indigestion is a simple, common word, but it has a terrible import.

And you may get apoplexy, and die suddenly while you're standing. If you have a weak liver, the poison of undigested food will attack it and you will get jaundice. If you have weak kidneys, you will get Bright's Disease or diabetes, from which there is no rescue for any man.

It was a learned physician who said that the progress of a race depended upon the stomachs of its members. And you have at some time in your life eaten a heavy meal, or eaten in a hurry, and felt that "lump of lead" immediately afterward. That lump of lead is a hard ball of undigested food. The stomach can't digest it and finds it hard to throw it out. And so it sours, and it makes you sour and everybody sour who talks with you. It gives you a bad breath and is building for you the road to dyspepsia and death, unless you stop it.

Stop it with Stuart's Dyspepsia Tablets. Just think, these little tablets are every bit as powerful as the gastric juice in your stomach. One grain will digest 3,000 grains of food. Isn't this wonderful? And it is true, just try it, and prove it.

If you have any brash, gas on the stomach, fermentation, burning, bloaty feeling, indigestion, dyspepsia or heartburn, Stuart's Dyspepsia Tablets will make it disappear before it can do any harm to your heart or other organs.

They will invigorate the stomach, relieve the stomach of two-thirds of its work and give it a chance to rest. They will increase the flow of gastric juice, and if you will ever "live" in your lifetime, it will be after you have eaten a good, hearty meal, and taken one of these little tablets immediately afterward. You'll just feel fine.

Take Stuart's Dyspepsia Tablets after your next meal today and you will use them ever afterward. You will be cheerful, vigorous and your mind will be clear; you'll have snap and vim, and add many a day to your life.

You can get these wonderful little tablets at any druggist's for 50c a package.

made by the big marketing concerns, such as the Standard, Associated and several larger independents. Whether the Union will be a party to any combine of this kind is a question, but its chief interest at present is in the other lines. Three leading oil producers and marketers yesterday asserted that they were already charging higher prices than they were a few weeks ago, but denied that there was any understanding with other companies and claimed that the raise was due to increased demand.

On the other hand, there is another factor as affects the market in general. The contract between the Associated and the Independent's Agency at Kern River is about to expire, and while negotiations for renewal are pending, many declare they do not believe that the Associated will desire an increase in price, which would encourage the producers to stand firm for a higher price in the field. When that question is settled, the chances for the combine's coming out for better rates may be much brighter.

## OFFICERS ARE ELECTED.

At San Francisco the California Oil Producers' Association yesterday elected the following officers: President, S. W. Morhead of Coalinga district; first vice-president, I. T. Cegre; second vice-president, F. N. Schofield of Kern River district; third vice-president, Ben Liebes of Santa Maria district; treasurer, T. R. Turner of Coalinga district; secretary, H. U. Maxwell of McKittrick district.

William Guenther sells to a local investor, No. 2916 South Main street, lot 60x140 feet, improved with a six-room cottage, consideration \$11,000.

J. Atkinson sells to M. A. Stewart, No. 1245 Constance street, modern house of nine rooms, lot 60x150 feet, price \$2,000.

Black Bros. report the sale for Beatrice Duran to D. E. Price of the southeast corner of Figueroa and Fourth streets (vacant), 60x165 feet. Consideration \$21,000. This is in the district affected by the proposed Fourth street tunnel.

The Van Vranken-Hunter Realty Company report the sale of the northwest corner of San Pedro and Twenty-fourth street, 115x162 feet to an alley, improved with three cottages and two double houses, renting for \$150 per month. The purchase was made by Alice T. Bowers from John M. G. Rosa, consideration being \$22,500.

## PARTNERSHIP RECEIVER NAMED.

NEW YORK, March 6.—Justice Truax of the Supreme Court appointed Charles Bessel, Jr., receiver for the partnership property of Charles A. Stockwell and William D. Ensor, who composed the firm of Stockwell & Ensor, manufacturers of machinery, at Baltimore, Chicago and this city, pending a suit brought by Charles A. Stockwell against William D. Ensor for a dissolution of the partnership on account of disagreements between the partners. The firm is solvent.

Vests**

500 high-grade men's vests  
of this famous New York  
make worth \$3.00, \$4.00 and  
\$5.00 go

**ON SALE THIS  
MORNING AT \$1.90**

We own the lot in a way that makes the extremely low price of \$1.90 possible. We bought the entire season's clean-up, comprising over half a thousand stylish single and double-breasted vests, in a big variety of patterns and colors. To the lot we've added several lines of white vests from our own stock to make a complete selection, including single and double-breasted white vests for full-dress wear.

None in the lot are less than \$3.00 vests—many are \$4.00 and \$5.00. Take your choice of the lot at \$1.90, and choose soon if you would choose best.

New Spring clothing now on display.

**If You Knew**

What we know you would always say  
"Schlitz beer" when you order. If you  
could visit our brewery—as thousands have  
done—you would insist on the beer that is  
brewed here.

You would want a beer clean—as ours is.  
You would want it filtered and aged as  
we do it. You would want to know that  
every bottle is sterilized—that it is pure—  
as is every  
bottle of  
Schlitz.

Ask for the Brewery Bottling.  
Common beer is sometimes substituted for Schlitz.  
To avoid being imposed upon, see that the cork or crown is branded

## EVEN BETTER THAN FRUMENTY

Old English Dish is Now Superseded by a Malted Grain Food

Writing on the food problem and advocating a rational health diet, Dr. Josiah Oldfield, author of "The Claims of Common Sense" and other well-known works, declares a sufficiency of grain food is necessary, and refers to the old English dish of frumenty as a most excellent article of food. He also speaks of malted grain as a food for increasing years. This eminent author thus strikes the very keynote of health and strength.

There is a modern food which embraces all the qualities of frumenty and has even more, for it is malted grain. We refer to Malta-Vita—all pure grain and nothing else.

Malta-Vita is made by an extended and elaborated process of the old way of making frumenty. The whole wheat grain is thoroughly cleaned, then boiled in water and cooked in steam to gelatinize the starch. After the starch cells have broken down, the wheat is mixed with pure barley malt extract, which converts the gelatinized starch into maltose, or malt sugar, highly nutritious and easily digested even by the weakest stomachs. Then each grain of wheat is rolled into little water flakes and going to the great ovens, where, under intense heat, it is baked crisp and brown, "done to a turn," and ready for your table.

All grocers sell Malta-Vita.

opened, a streak of which runs into the mountain, where the whole vein is high grade. The ore is being sacked for shipment and is kept under guard. Rich ore is being taken from the veins at the shaft, which is in a vein parallel to the mountain, and 600 feet south.

New contracts, all for sinking, let during the week, are as follows: Searchlight Bonanza, 240 feet; Searchlight Copper-Gold, 150 feet; Combination, 240 feet; Mountain, 125 feet; Gold, 240 feet; and M. and M., 225 feet.

The Searchlight M. and M. Company, which is controlled by George I. Myers, H. C. Lichtenberger and Senator Henry E. Carter, all of Los Angeles, has opened a very large body of high-grade ore in the 250-foot level. The new shaft is now working steadily on one of excellent grade. The shares of this company have gone up to 85 cents, recently, on the Los Angeles Stock Exchange, presumably because of new discoveries underground which have added materially to reserves of the mine.

Cyrus Noble shares are now at 40 cents, on the San Francisco Stock and Exchange Board. A sharp advance is expected here, on account of the starting of the mill, which is reducing an accumulation of high-grade ore, and because of recent important discoveries underground. It has been authoritatively announced here, that the company will declare a dividend in April.

The Searchlight Consolidated is property to be leased from in the near future. It is being energetically and well developed. Excellent ore bodies have been discovered, and it is understood that the property will be listed before many weeks, as a preferred prospect, in San Francisco, Los Angeles and New York.

**ANGERED AT BRICKS.**  
Colored Man Wounds Fellow-worker With Knife, Thinking Missiles Had Been Thrown at Him.

A spirit of revenge got Conway Aroyton, colored, into trouble and jail yesterday. He and a man named Fred Rapp were working at a building on San Pedro street, where the bricks and mortar were being hoisted on an elevator. Aroyton was at the bottom when a brick went tumbling down and came near striking him, then another and another. He sent back hot language to the upper regions from whence the bricks had taken a tumble of their own accord, and concluding that Rapp was throwing them at him, jumped on the elevator when it started up with a load of material and as soon as he reached the top attacked Rapp with a knife. Rapp retaliated with his fist and knocked Aroyton down when he was collared and handed over to an officer. He was taken to the City Jail and will be charged with assault with a deadly weapon. Rapp's wound is not serious and he refused to be taken to the Receiving Hospital.

**CURABILITY OF BRIGHT'S DISEASE**  
(By the Editor of the Town and Country Journal.)

Personally I have not believed that chronic Bright's Disease is curable, and this for two distinct reasons.

First—Medical works class it as incurable and fatal.

Second—Those I have known who had it have died.

Result—I look with distrust upon all claims of alleged cures.

During my recent visit to San Francisco I heard the president of the Pacific States Type Foundry claim that chronic Bright's Disease was now as curable as a cold. I said I would like to believe it.

He told me in the statements of his case, that he had been afflicted with Bright's Disease and Diabetes and had been given up, but had completely recovered. Said he knew many others who had recovered. Gave him his little list of eight-tenths of all cases were curable under the new specific. We next called on one of the big insurance men on California street. He said his son was swollen with dropsy from Bright's Disease and his death was daily expected when he was put on the treatment. He is now an invalid.

We called on the editor of one of San Francisco's great dailies who had a physician test it out in his own (the physician's) case. The latter being a hopeless diabetic. In six months he was well. The head of another large insurance company on Montgomery street was next seen—he was in his last year last in a critical condition due to chronic Bright's Disease. He was well and in his office and also told of a friend of his who was in convulsions when put on the treatment and was now out on the street. We went to the office of an ex-Supreme Judge and also another editor, both of whom had recovered.

I declined to go further. Although there were hundreds more to see, it was useless. If human testimony from the very best people is worth anything, the books are wrong, and chronic Bright's Disease and Diabetes, even in extreme cases, are positively curable. Ethics ought not to be permitted to obscure this discovery, and in the interest of those readers of this paper whose homes may have one of the brights upon it, I now declare the facts and also tell of them, any of them desiring it may be sent full literature. The facts are as follows:

Many broad physicians are using the new specific, but in view of the terrible annual death list in the United States from Bright's Disease, nearly 6,000 the fact that medical ethics prevent them from proclaiming the discovery to the world, because the formula is the personal property of the individuals. In this instance practically amounts to a public scandal—Troy and Country Journal, San Jose, Cal., July number, 1905.

If any one having a knowledge of a case of Bright's Disease or Diabetes will send us the name and address we will see that they are sent full literature concerning this remarkable discovery.

## OAK LAWN

"A Residential Paradise"

Printer's ink can little more than suggest to you the entrancing beauty of Oaklawn.

A commanding elevation, magnificent scenic and architectural attractions, ornamental trees, fruits, flowers and shrubbery, broad drives, stately homes and a fast and frequent car service to Pasadena and Los Angeles business centers—these are the Oaklawn elements that have appealed to discriminating homebuyers and investors.

All electric and overland transportation lines converge directly east and south of Oaklawn.

An artistic bridge, the largest reinforced concrete bridge structure in the United States, will connect Oaklawn with the main Los Angeles-Pasadena road.

The bridge is now in course of construction and will cost \$20,000.

Oaklawn is just a stone's throw from the Raymond Hotel, famous Orange Grove Avenue and some of the most attractive homes in Pasadena.

Why not visit this ideal subdivision today?

Pasadena car will bring you to Oaklawn in less than 25 minutes.

Go today and see the kind of property you've ALWAYS wanted.

**BOLD ROBBER LOOTS BISHOP'S RESIDENCE.**

**Porch-climber Enters House While Catholic Prelate and Friends Are at Dinner, Getting Away With Priceless Treasures—Suspect Held.**

IN A DARING robbery of the residence of Bishop Conaty, No. 717 South Burlington avenue, a porch-climbing burglar got away with a sum of money, together with watches, gems and other articles of jewelry, some of them beyond price because of their association.  
The robbery was committed while the Bishop, with relatives and friends, were at dinner, and the burglars, who were the property of Bishop Conaty, the gift of an association of friends in Europe. Their actual money worth could not nearly represent the value in which they were held by the owners.  
Immediately after Officer Foster examined the premises the Police Department was notified of the burglary, and Detectives Kieffer and Boyd were detailed on the case. Yesterday, sev-

**JOE MARKHAM ARRESTED.**  
Last evening they made the arrest of Joe Markham, and they believe that today will reveal the location of the watches and jewelry.  
Markham, according to his own admissions, boasting made, was formerly a crook and member of a gang of confidence operators who worked in the larger cities of the Middle West. He appeared here several years ago, and during the administration of Charles E. Elton as Chief of Police, Markham was in clover. Despite his criminal reputation he was given employment in the Police Department. For a time he occupied the unenviable position of "stool pike," and was instrumental in pointing out to certain detectives a number of cheap crooks. One or two important arrests were made as a result of information which he furnished. Then he was given a star, and a special policeman and reported regularly to the detectives' office. Although Capt. Bradish, who had charge of that branch of the service, objected vehemently to Markham's presence, Elton took the responsibility for him, and again yesterday the devoted path which led to his forced resignation, he found a willing tool in Markham, and the ex-crook and confidence man became one of Elton's advisers and informants.  
Suddenly Markham left the city. There were various stories about as to the reason for his departure, but the real facts have never been made public. He was away for a number of months, and after his return he was not so active in police work, and with Elton's fall from grace he ceased to be a factor in that department. Since then he has been, he says "lying low." He has made the statement that he is working in Los Angeles because he says the police would be glad of an opportunity to convict him if they had any evidence at all against him.  
Just what evidence there is against him in his present trouble has not been disclosed, of course. In fact, it is not known that there is positive evidence to connect him with the crime, other than the fact that he is fully capable of committing it. He is in the City Jail.  
**MYSTERIOUS DR. DAY.**  
San Francisco Authorities Want Him in Connection With Tenny Tragedy.  
Not R. V. of This City.  
During the investigation at San Francisco into the death of Pugsley Tenny, which occurred after his fight with Neil, the information was given the authorities that a Dr. Day had aided the fighter before the fight and pronounced them in good physical condition. Every effort has been made to find this man Day, but without success. A dispatch to The Times from San Francisco last night states that the supposed physician had used the name of Dr. R. V. Day. The State records show that the only physician of that name in California is Dr. Robert V. Day of Los Angeles. Dr. Day had nothing to do with the fight, and nothing of any examination of the pugilists. He has received numerous inquiries about the matter. The San Francisco authorities believe there was no examination of the fighters.

**SEEKING FAR AN ABSENTEE.**

California Development Company After Stowell With Heavy Attachment.

The California Development Company has caused the attachment of everything discoverable belonging to the numerous defendants in the suit brought by that corporation against a number of very well-known financiers of Southern California. As told some days ago in The Times, the case has been settled out of court in so far as it affects A. H. Heber, but the action still lies against George and Andrew M. Chaffey and Nathan Wilson Stowell.  
The "title of court and cause" in the attachment is the same as in the original suit, including the names of all those who have already settled out of court. This is evidently done in order not to disturb the original complaint.  
Those who are party to the suit are talking these days less than ever, but it is easy to see through some things. The purpose of these attachments is probably to reach Stowell. He, with the plunderers of the insurance companies in New York, Rockefeller, Rogers, and all the rest of the different bunches whom the sheriffs and prosecuting attorneys of different States are chasing, is beyond seas.  
The last heard of Stowell he was in Paris enjoying his unholy honeymoon with the young girl for whom he deserted his wife. Being so far away, the plaintiffs in this case probably find it somewhat difficult to reach him. The fact that everything belonging to him in the country has been attached, is likely to make him come from under cover, either in person or through his attorneys.  
The attachments recite that they are made to secure the sum claimed in the complaint, which amounts to close to \$200,000.

**BAD LITTLE BOY.**

Lad of Ten Years Caught Last Night Taking Pipe at Cigar Stand and Arrested.

Little Charles Brown, aged 10 years, was caught last night in an attempt to steal a handsome meerschaum pipe in the Hoffman cigar stand on South Spring street. He was arrested and placed in the Detention Home.  
Monday night the lad was hanging around the place and when he had left a pipe was missed from one of the cases and the proprietor suspected the boy. Last night a trap was laid for him. The stand was left open and when the lad appeared he was carefully watched and a moment after he had taken the pipe George Rowell, a guest at the Hollenbeck Hotel, who was one of those on guard, took charge of the boy and turned him over to the police.  
At the cigar stand before the arrival of an officer it is said the lad confessed to stealing a number of other articles in different places. He says he took the pipes to sell them. Charles Brown lives with his parents at No. 326 East Thirty-second street and is a new boy.

**MRS. SAUER REARRESTED.**

"Queen of Realm of Unrevealed" This Time Charged With Committing Theft in Texas.

Mrs. Margaret Sauer, self-styled "Margaret Graham, the queen of the realm of the unrevealed," was arrested again yesterday by the local police on a new warrant from Texas, charged with committing a theft in Baxter county, that State.  
The woman was arrested last Saturday on information from the officers at San Antonio that she was wanted on charge of embezzling \$30,000 from a number of women in that city about seven years ago. She was in jail but a few hours, however, when admitted to \$5000 cash bail, which she furnished.  
When the new complaint arrived yesterday Mrs. Sauer was immediately locked up in the City Jail, where she was detained last night.  
The police believe that the Governor will immediately sign the necessary papers to permit the officers from the last report seeking an interview with the popular German officer had to content himself by interviewing the dog.

**SHATTERED GLASS HOLDS A MYSTERY.**

**Tragedy of Lonely Fremont Pass Unfathomed, and Beautiful Girl's Story Causes Doubt at Fernando—Sherlock Holmes Case.**

THE coroner's verdict of "suicide" has not stilled the suspicion in San Fernando that Elson Dunbar was murdered Sunday night at the picturesque lonely old roadside in Fremont Pass.

The only one who really knows how he died is his young and beautiful Spanish wife.  
She is huri to the quick because the accusing finger of Gossip is inevitably pointing at her.  
All the officers who have worked on the case agree as to her emotional intensity; but the talk of the old village stubbornly clings to her.  
Her striking beauty and the fact that she is a daughter of one of the oldest

out of sight around the mountain. There I got help and came back as fast as I could. When we got back, my husband was dead with the pistol lying by his side."  
In telling the story Mrs. Dunbar gave every evidence of genuine and sincere grief. She kept saying: "He was so good to me."

**BUT ACCOUNTS DIFFER.**

Unfortunately, the accounts of those who first got to the body do not agree. Frank Monroe, a San Fernando man who was early on the scene tells the townspeople that the body was shot through and through; that the wound in the back was small; the wound in the breast large and torn after the manner of a bullet entering from the back and coming out at the breast.  
Constable Strader of San Fernando states, however, that the bullet did not go through the body at all but entered the breast at the heart, and lodged somewhere within.  
**TWO VITAL POINTS.**  
This, with a peculiar circumstance of a broken pane of glass, are the vital points in the case.  
Men do not shoot themselves in the back when they commit suicide.  
But Coroner Trout says he is perfectly satisfied that the bullet entered the breast. The flesh was torn and powdered as though the missile had been pressed tightly by the hand of a self-killer.  
The broken pane of glass is worthy of a Sherlock Holmes story.  
Just on line with a spot where the body was found, in this mute, shattered window glass, the window was an old-fashioned affair; just this one small square pane was cracked in half. When the coroner got there the glass had been picked up and placed away on the window sill. Fragments remained, however, to show that when it broke the pieces fell outside the house.  
Although it seems to be an indication of a shot fired from within the house, it is silently contradicted by another peculiar circumstance.

**OLD KEG'S CONTRADICTION.**

Near the spot where Dunbar fell is an old water keg. This is splattered with blood, as it must have gushed from the heart of the stricken man. His body was found lying back from the keg, and the ground is soaked with blood at this point also.  
Reasoning from these facts, it would seem that Dunbar must have been shot while leaning far enough to get his heart opposite a small keg.  
It may very probably be that, going outside, he again dropped the revolver as he had done in the bedroom. Leaned over to pick it from the rocks and in his befuddled condition, touched the trigger or else dropped it again. At any rate, he did something to send the bullet through his heart while he was bent over.

**WILD BEAUTY SPOT.**

In the lonely, wild beauty of Fremont Pass, six miles north of San Fernando, Pete owned an old adobe roadside house. It used to be the stage station in the old days; afterward the collecting station for the old toll road through the pass.  
Of late years it has been falling to pieces, dropping away bit by bit. Dunbar and his wife were installed there to run a roadside. With grim, if somewhat aged humor, they named the place the "First and Last Chance Saloon." San Fernando being a prohibition town—except when "In" is on tap.  
No more desolate, wild or picturesque spot could be imagined. It lies in a narrow cut through the hills which rise sheer and wild and shaggy on every side. It is a place for awe, reverential fear, solemn exaltation; not steam beer.

**WIDOW TELLS OF TRAGEDY.**

Sunday night, after Mrs. Dunbar had retired, her husband entered the room with the cash from the money drawer in the barroom, and his revolver. In accordance with his custom he tried to put them under his pillow. He was somewhat intoxicated, however, and dropped the revolver on the floor.  
These facts and those that follow are based on the story of Mrs. Dunbar; she and he were there together—no one else.  
"He went to the front door," she said in telling the story to a Times reporter yesterday.  
"Presently, I heard a pistol shot and ran out after him. He was lying on the ground and the blood was spouting from his breast. I called to him and took his head in my hands and tried to make him speak to me. But he would not."

**ONE FOR SHARP ANALYSIS.**

The case is one for analytical reasoning from the facts. For the reason that the girl was alone with her husband, of a necessity her statements must be put out of the case.  
Dunbar's dependence on a long-continued stomach trouble, his financial condition; his furious if silent jealousy of his young wife; point to suicide. The blood on the keg points to accident. If there be anything whatever to point to murder it must be found in the circumstances found after the death.

**IF THE GIRL HAD ANY MOTIVE FOR KILLING HER HUSBAND, IT IS NOT KNOWN.**

Since the death of Dunbar she has taken away all the meager furniture from the roadside and moved into town to the house of her brother.  
The old adobe house stands vacant and lonely—a monument to a strange

ANOTHER LONG SHOT ARRIVES.

Some Books Are Stung by Victory of This One—Three Favorites Come Home First—Feature Event Turns Out to Be Struggle Between Morita and Embarrasment.

Another day went by at Ascot with the usual 100-to-1 shot in front in the first race and the victory of this beast served its amusing end in steering the plucky runner to the front in the next race. After that first race some of the cheap bookies were scared to write a long shot on their slates and the sports doubtless lost more than they won on the day on account of the number of long ones in sight and get-away week coming rapidly.

The events were keenly contested and aside from the long-shot victory, the best thing of the day was the hot race between Morita and Embarrasment, the latter winning by running a mile in 1:39.

# MORRIS LEVY DENIES THINGS.

STATES HE WAS NOT MIXED IN TENNY-NEIL FIGHT.

Says He Came Here After Discussing the Scrap With District Attorney—Neil Declares He Talked Fight Over With Neil—Fuss Kicked up Will Hurt Game in North.

Morris Levy of San Francisco, who is here to pull off the fight between Joe Gans and Twin Mike Sullivan, does not appear to be very much worried about the Tenny-Neil fatality in San Francisco, but it is possible that the new developments may interfere with his proposed scrap in this city.

The weather was clear and sunny yesterday put Levy in the same light as the other members of the "fight trust" up around the big bay, Neil declaring that all the negotiations he had in regard to the Tenny scrap were made with Morris Levy. This looks rather peculiar in view of the fact that on Sunday night Levy stated to the writer that he had nothing whatever to do with the fight, as it was given by Coffey's, which was without saying, of course, that if Levy is wanted, he will go to San Francisco and take his chances with the rest of the promoters in that city.

Levy has not needed the protest sent against his entry into Los Angeles for last night workmen were engaged in constructing the ring which he hopes to use at Chutes Park, 116. This is being built in the rear of the sports goods house on 9th street, and Levy still holds the park management to their agreement to rent him the park, although a stiff sum was agreed as compensation.

Joe Gans, the "me too" of Billy Nolan's expose of San Francisco methods, may be better off than Joe Walsh, an "A.H.I." he whiter than snow," is Gans's motto. The colored boy is virtually an outcast of the profession. He cannot enter the ring, and the northern metropolis since his "you're another" to Mr. Britt, and his confession has placed him beyond the pale of confidence.

Another ill that is besetting Levy and Gans is the fact that Mike (Twin) Sullivan, with whom Gans is supposed to box, is holding off from signing articles in anticipation of a failure of the promoter's plans, and unless Levy can show Sullivan something within the week, Joe Thomas will be taken on before McCarey's club.

"CABBAGE PATCH HOOK." Shades of Fitzsimmons and McCoy? Tommy Burns has taken the second step in the championship series.

Tommy has invented a new blow. Wait until Baby Robert and the Kidder catch Burns peddling out his discovery under a written guarantee!

It's the cabbage-patch hook. Ask Tommy and Twin Sullivan its invention, and they have a corner on the invention.

Tommy handed it out to the Twin yesterday afternoon down at Lewis's, and Twin took the champion to one side and asked him to write out the concoction.

All one has to do is to yell "cabbage patch hook" and the champion begins to look for a stroke of lightning.

Twin says it will bring home the long end of the money Friday evening if Burns will consent to allow the man with the shiny pol to use his discovery without paying royalty.

Fits with his solar plexus overlooked one essential in speeding it to popularity, in that he turned to the scientific in selecting a name.

Most fighters consumed too much time in trying to get the name down, therefore its use did not become general.

Think how easy it is to remember the "cabbage-patch hook." Its associations with the time-honored "corn beef" and "sausage" are something sweetly alluring for the son of Erin.

Take off your hat to the new champion, for Tommy has the head as well as the punch, and nothing can keep him from advancing. One thing alone is lacking, Burns has not learned to talk. But this will doubtless be remedied, for Tommy Ryan is still in town and can give the French-Canadian a few pointers now and then.

# ANOTHER LONG SHOT ARRIVES.

BELVOIR AT THE CENTURY MARK ROMPS IN EASILY.

Some Books Are Stung by Victory of This One—Three Favorites Come Home First—Feature Event Turns Out to Be Struggle Between Morita and Embarrasment.

Another day went by at Ascot with the usual 100-to-1 shot in front in the first race and the victory of this beast served its amusing end in steering the plucky runner to the front in the next race. After that first race some of the cheap bookies were scared to write a long shot on their slates and the sports doubtless lost more than they won on the day on account of the number of long ones in sight and get-away week coming rapidly.

The events were keenly contested and aside from the long-shot victory, the best thing of the day was the hot race between Morita and Embarrasment, the latter winning by running a mile in 1:39.

# FOR INDIGNITIES TO "OLD GLORY" SHOOTING GALLERIES SHUT UP.

The American flag will not be used in Los Angeles. This was the decision of the Chinese and Japanese yesterday by prompt revocation of shooting gallery licenses where the flags as targets.

The flags as targets, the owners of the galleries were unable to stop them. This explanation doesn't coincide with the reports which have come to police headquarters.

American flags tattered by Chinese bullets in Japanese shooting galleries on North Alameda street.

Shooting galleries and stripes were fired at the night before. E. Morita, No. 414 1/2 N. Alameda, No. 1114 North Alameda street, Japanese, were the galleries.

Chinese customers shot into tatters the American flags in their places. It was the Japanese who encouraged the indignities and that they resented a rich reward in cash from the Chinese, who were wild to get bullet holes through the stars and stripes.

The incident of the shooting of these American flags in two Japanese galleries by crowds of Chinamen has aroused much comment since the account of it appeared in The Times yesterday morning. It is considered a criterion of the general temper of the Chinese mind at the present time. The serious condition of affairs in China doubtless has as full discussion in the local Chinatown as any other section of the city; and it is believed that the outrages of Monday night are a result of anti-oriental sentiment in the local oriental quarter.

## KNOWLEDGE PRIZES AND THE WINNERS.

Since last Wednesday noon, when The Times Knowledge Contest closed, the Knowledge editor and staff of assistants have been making the basket of prizes for the contest. The lady who won the first prize, a new hat, was absolutely correct in her list, and the nearest runner-up was the lady who submitted the second prize. The work was done conscientiously and his staff and assistants in the beginning, his decision as to winners will be final.

child, advertisements and all the contest is especially significant. Winners may come to the office of The Times at any time and obtain their prizes from the Cashier. All awards have been made without favor for any contestant over another, and the Knowledge editor is the final arbiter of their fate.

The list of winners is as follows: Catherine R. Wagner, No. 128 South Los Angeles street, first prize, \$25. Alice L. Bates and Edith M. Bates, No. 2115 South Grand avenue, each one-half of the second prize, \$12.50 each. Edna T. H. Manley, No. 215 South Grand avenue, third prize, \$10. Mrs. W. F. Hauser, Ingewood, fourth prize, \$10. Charlotte Bugbee, No. 2215 South Figueroa street, fifth prize, \$5. E. S. Mooney, Hollywood, sixth prize, \$5.

The balance of the twenty-one prizes of \$1 each were won as follows: Mrs. K. A. Weir, No. 2022 Oak street; Dolores Allen, No. 751 1/2 South Hill street; Gus Ellsworth, No. 629 South Flower street; Frances Moran, No. 224 North Broadway; Georgia Coy, No. 1500 East Vernon avenue; Ward B. Harrington, No. 1338 Connecticut street; F. Ray Rison, No. 747 East Washington street; Ruth Bell, No. 809 North Alvarado street; Mabel Davisson, No. 525 South Figueroa street; Mrs. P. H. Muller, No. 520 South 2nd street; J. A. Kieferle, No. 2207 Romeo street; Edwin F. L. Nevin, No. 1218 Santee street; Gladys Grayson, No. 631 South Flower street; Miss M. G. Cummins, No. 1204 Arnold street; Mrs. C. S. Johnston, No. 148 East Thirty-seventh street.

CATHERINE R. WAGNER, winner of first prize, seventy-five dollars.

In case the prize was split, notably that of the Bates sisters, each of whom made the same number of errors, the prize was divided between the two.

There was one of the requirements in some instances concerning the name of the firm. When it came to the firm name, when it came to the name of the firm, the name of the firm was called for, and the name of the firm was called for.

It is necessary to say that those who submitted this binder will have a right to the prize. As a demonstration of the large circulation of The Times, the prize was given to a woman and a man.

At the close of the contest, the prizes were sent to the winners. The prizes were sent to the winners, and the prizes were sent to the winners.

The prizes were sent to the winners, and the prizes were sent to the winners. The prizes were sent to the winners, and the prizes were sent to the winners.

The prizes were sent to the winners, and the prizes were sent to the winners. The prizes were sent to the winners, and the prizes were sent to the winners.

## Continued Selling of the Stock of the BOYLE HEIGHTS DRY GOODS STORE

TREMELOUS DAYS' BUSINESS - SELLING BANKRUPT STOCK

Nothing but dependable merchandise way below real worth could attract and hold and satisfy such crowds of shoppers as have been here this week. Many lines originally offered were cleared up early in the selling, only to be replaced by other merchandise even better in value. Other lines have been disparaged by additional bargains and the selling goes merrily on. Today's offerings are decidedly choice, sifted and selected from many remarkable values. These are but samples.

WANTED WALKERS?

Santa Ana Man, Arrested for Stealing Seven Sacks of Wuts, Pleads Not Guilty.

SANTA ANA, March 6.—Charles Barnett was brought before the Justice of the Peace yesterday, to plead to a charge of burglary. He pleaded not guilty. He will be brought up again Friday morning.

Barnett was arrested Sunday and charged with stealing seven sacks of walnuts and two cases of honey from the Guggenheimer packing-house. His capture was effected in the river bottom, just north of the Anaheim crossing, and the loot found in the underbrush near by. It is supposed that he had a partner, known as Mike Fowler, but so far the police have been unable to locate him.

WANTS HIM PUNISHED.

Papers charging E. H. Wallace, a musician of this city, with living in open adultery with a woman said to be Unabelle Hancock, who was passing as his wife under the name of Eunice C. Wallace, were filed yesterday.

According to the documents in the case, it is alleged that Wallace is an assumed name, and that his true name is Augustus B. D'Ancon. The action is brought by Belle D'Ancon, through Ralph E. Swing, an attorney at San Bernardino.

The woman says she married the defendant in Cook county, Illinois, on February 14, 1899, and that they had two children born to them, a girl named Josephine, who is now 18 years old, and a boy, Edward, 15 years old. She says that on February 17, 1905, she learned that her husband had married another woman, and that he had abandoned her and her children, and left her without any means of support, nor has he contributed anything toward their support since that time, although capable of earning \$150 a month.

The plaintiff asks the court for separate maintenance, to the amount of \$75 a month, for herself and children.

CALL GROWERS.—Are Invited to Meet at Covina on the Routing Question.

COVINA, March 6.—The Covina Orange growers are aroused at the recent decision of the Supreme Court on the matter of routing of freight. They have issued a call for a public meeting, to be held in the Woman's Club house next Saturday evening. The call, in part, is in the following language:

"The recent decision of the Supreme Court of the United States, reversing the judgment of the Circuit Court and the Interstate Commerce Commission, and denying to all shippers the choice of route to market, places our industry again in the power of the continental railroads without check or control. The railroad companies may well say to us: 'What are you going to do about it?' It is difficult to say what is best to do. But we cannot not to accept the situation tamely. Legislation could be framed, and brought to the pass, and yet so plain and simple that the most willing judge could not misunderstand it.

CHICAGO HOTEL MAN A SUICIDE. CHICAGO, March 6.—Henry V. Bemia, one of the best-known hotel men in the country, and a member of the Chicago Board of Trade since 1878, killed himself tonight at his residence in Indiana avenue. He shot himself behind the right ear, causing instant death, after four unsuccessful attempts to pierce his heart with a paper knife. For more than two years he has been in poor health, and this, coupled with recent heavy financial losses in a business venture, is assigned by his friends as the cause of his suicide.

## DEBT THROWS POOR IN JAIL.

English Laws Make Credit-  
Taking Very Dangerous.

Nearly Twenty Thousand  
Imprisoned Past Year.

Dealers Soliciting Loans With  
Body as Security.

(SPECIAL CORRESPONDENCE OF THE TIMES.)  
LONDON, Feb. 7.—One of the chief topics of the day in this country is present is a paper which Judge Parry read on Monday before the Manchester Statistical Society, showing the fallacy of the popular notion that there is no such thing as imprisonment for debt in England. As long ago as 1869 an act of Parliament was passed which purported to abolish imprisonment for debt. It was regarded as a signal triumph for John Howard, Charles Dickens and the other reformers, who had waged such strenuous warfare against the pernicious system. But so far, it seems, has the law failed of accomplishing its purpose, that at the present time there are more men and women lodged in British jails because they cannot pay what they owe, than there were when John Howard began his agitation.

During the year ending March, 1932, the number of those who were imprisoned for debt amounted to 19,330. The vast majority of these belong to the working classes. Most of them owed only trivial sums. They were committed to jail on commitments from the country courts at the suit of private creditors. During the same period payment was exacted from over 10,000 debtors in small amounts under a country court's threat of imprisonment.

**POOR MAN'S BURDEN.**  
It is a case of one law for the rich and another for the poor. The rich debtor, no matter what reckless extravagance he may have indulged in, easily obtains relief from his creditors by going through the bankruptcy court. But that entails the payment of fees entirely beyond the means of the ordinary wage earner. If pressed the poor man must either pay up or go to jail. Judge Parry shows that while proceeding to abolish imprisonment for debt, there has been left in existence a system under which every small debtor's person is his creditor's security. And the system has created a large class of merciless commercial harpies who, by promises of easy terms and long credit, inveigle poor people into buying things they cannot afford and for the most part do not need, and then trap them into jail if they fail to pay up the last penny the exorbitant prices which they are invariably charged.

There has grown up of late, and more particularly during the last five years, a large number of firms who make it their business to tempt people of small means to get into debt. They range from big concerns doing an enormous business on more or less honest lines, down to mushroom adventurers dealing in shoddy goods by means of alluring circulars that are often no better than swindlers. But the offer to deliver goods on credit and take payment by instalments is the common feature of all of them.

**DEALERS COURT CREDIT.**  
There also has been, during the same period, a large development of the same class of business among ordinary tradesmen. The sale of furniture on the hire system has become almost universal, even in the case of transactions to the amount of less than a dollar. It has been extended to the sale of jewelry, pianos and musical instruments of all kinds; perambulators, bicycles and every variety of goods which the working classes now aspire to possess. A host of drummers is continually engaged in tempting both the husbands and wives of the wage-earning classes to mortgage their earnings for weeks, months and even years in advance.

This pernicious system of credit with all its incidental evils is founded upon the machinery provided by the country courts for the "recovery of small debts." It is the ultimate security furnished by the committal order which consigns the unfortunate debtor to jail, as Judge Parry points out, which alone makes credit possible, in the great majority of cases, for the man without capital or goods. The law creates this unnatural state of things and the inevitable result is to destroy thrift, to encourage improvidence, to create poverty and to aggravate the troubles of the poor.

Judge Parry's disclosures have made a profound impression and his contention that imprisonment for debt, under whatever legal fiction it may be disguised, should be swept away forever, meets with powerful support from all shades of public opinion.

**Monopoly of Currants.**  
Charles S. Wilson, secretary of legislation at Athens, reports that the company formed some months ago, which obtained from the Greek government the monopoly of the growing and trade in dried currants, upon taking over the stock of the former companies, found about \$8,000,000 worth of currants in its storerooms, and at the end of this year that amount will be almost doubled. In order to utilize this large supply the company is making experiments in feeding animals with the product after it has been kneaded and made into molds. The company is also about to import a number of automobiles into Greece to be used as public conveyances. The motive power of these machines is to be alcohol extracted from currants. The same alcohol will be used for lighting purposes and the company is now trying to introduce lamps which burn alcohol. It is hoped, on account of its price, that alcohol will largely replace petroleum, which is very expensive in Greece.—(Pittsburgh Press.)

**BOSTON AGAIN IS SECOND PORT.**  
BOSTON, March 14.—In the twentieth annual report of the Boston Chamber of Commerce, issued today, it is pointed out that Boston has re-established herself as the second port of the country on combined values, taking the place of New Orleans.

**Headaches and Neuralgia from Colds.**  
Laxative Broom Quinine, the world wide cold and grip remedy, removes the cause. Call for the full name and look for the signature of F. W. Grove, Inc.

**Yosemite Valley.**  
The Yosemite route, via Southern Pacific to Yosemite, opens April 1 with daily stage. Late rains and melting snow will make fine waterfalls, no dust, no frost, no forest fire, no smoke. Information may be had at Southern Pacific Ticket Office, No. 361 South Spring street, corner Third.

**Italian Restaurant, 7th and Broadway.**  
If you've never tasted a meal at this cafe, ask the opinion of those who have.

In sickness and in health, the delicious light table wine of the Italian Swiss Colony, Asti D.O.M.G., is the most pleasant and invigorating beverage. Try it.
